Increases Proposed Range From Autos to Expensive Wearing Apparel.

## MAY RAISE THEATER TAX

Preparations for framing the new revenue bill went forward in the House yesterday and means committee today, with attention centering upon the list of suggestions for new or higher taxes on luxuries and necessities submitted yesterday by the Treasury Department.

Members of the committee indicated that the list would form the basis for consumption taxes in their draft of the bill, though some of the proposals would be changed and others disregarded.

**Increases Suggested.**

Besides doubling present taxes on liquors and tobacco, quadrupling soft drink levies, and making general increases in other existing rates, the Treasury suggestions include taxes of 50 per cent on retail prices of jewelry, watches and clocks except those sold to Army and Navy men; 25 per cent on automobiles, bicycles, musical instruments, etc.; 10 cents a gallon on gasoline to be paid by the wholesaler; 10 per cent on hotel bills for rooms over \$1.50 a day or American plan over \$5; 10 per cent on all cafe or restaurant bills and taxes of unstated amounts on men's suits selling for more than \$30, women's suits over \$40 and coats over \$30; men's hats over \$4, shirts over \$2, pajamas over \$2; hosiery over 25 cents; shoes over \$5; gloves over \$1; underwear over \$3; all neckwear and canes; women's dresses over \$25, skirts over \$15; hats over \$10; purses, toilet articles, etc., over \$2.

**Would Hit at Theaters.**

In addition to all these taxes, which would be levied directly upon the consumer, the list proposes doubling the present motion picture admission tax and imposing a 5 per cent tax on moving picture theaters, in addition, with the present film tax eliminated.

There was a general discussion of luxury taxation without any conclusions. The suggestions which the Treasury made were tentative proposals, practically all of which have been suggested during the long series of committee hearings.

**Hearings Near End.**

Hearings before the committee neared the close today with the offering of testimony by wholesale jewelers in regard to taxation of their industry. The jewelry retailers and middlemen have been heard previously.

Planning a newspaper publishers will make their final effort to obtain a repeal of the postage rate law at a hearing tomorrow. Chairman Kitchen has announced that drafting of the bill will begin next Monday. It is planned to have a tentative draft of the bill in form for consideration at that time.

The committee is disposed to concede that corporations, like individuals, should be taxed on their income. The tax returns, contributions to charitable, religious and educational purposes.

The present law allows persons, but not corporations, to make such deductions from their taxable income. A number of committee members have indicated a belief that corporations and individuals should be treated alike in that respect in the new law so as to stimulate contributions to patriotic purposes, as a patriotic proposition.

## PAID "BOOTEER" AT WORK, IS URGED

Counsel Hart Says That "Bone-Dry" Law Is Needed.

## PRaises "DRY" DISTRICT

A compulsory work law for the District or enactment by Congress of an amendment to the Read "bone-dry" law so as to prohibit the importation of liquor into the National Capital is the only real solution of the "bootlegger" problem now facing the city. This was the belief expressed today by Ringgold Hart, assistant District corporation counsel.

Mr. Hart stated that the liquor situation in Washington would not improve materially until some law was passed prohibiting a person from bringing or importing into the city more than a quart of liquor a month.

"As long as a man is allowed to bring liquor into the city for his personal use," he said, "we will be faced with the bootlegging problem."

**Favors Compulsory Work.**

The prosecuting officer of the District branch of the Police Court, Hart, is a strong advocate of a compulsory work law. He believes that if such a law is enacted the hundreds of "bootleggers" who are busy under surveillance by the police can be brought into court under that law, and the law will be enforced.

**Improvement in District.**

Mr. Hart is of the opinion that the present prohibition law, not withstanding the "bootlegging" evil, has been of great benefit to the city. "Although the illegal liquor traffic has greatly increased," he said, "intoxication, assault and disorderly conduct cases have decreased 99.9-100 per cent since it went into effect."

Six colored men arrested in the vicinity of H street between 1st and 2nd streets on Thursday night, charged with violation of the Sheppard law were set free today by the District Court of the lack of evidence against them.

According to the police the men had been charged with the violation of the Sheppard law because they were carrying a suit case containing forty-eight half pints of whiskey, a total of 288 half pints.

The men were locked up all night and the case against them dismissed because they claimed the liquor was for medicinal purposes. The District Court was unable to prosecute the case because the men claimed it was for medicinal purposes.

**Colored Woman Arraigned.**

Charged with selling liquor to soldiers, Martha Brown, colored, 11 Grayson street, was arraigned before Judge McCreary today morning, and entered a plea of not guilty and demanded a jury trial.

The woman was arrested last night by Detective Sgt. J. L. Kilman and Detective Harney of the fourth precinct soon after she had made a sale to a soldier on the front porch of the colored woman's home.

Her house was searched and twenty-five half pints of whiskey and twenty-five bottles of beer were found under several bags of flour and biscuits which had been placed in a bread box. The police stated that this is the fourth time the colored woman has been arraigned on liquor selling charges, but previous cases were dismissed because they were unable to find the witnesses who went to France.

**Edward Davis, colored, also was arraigned before Judge McCreary today morning, and entered a plea of not guilty and demanded a jury trial.**

Efforts to run the notorious Southwest corner of the "bootlegging" out of business by selling whiskey at greatly reduced rates, led to the arrest this morning of Edward Davis, colored, 1000 10th street, who was charged with selling whiskey at a discount.

**Chamber of Commerce Committee to Consider Salvage Campaign Proposal.**

A special committee of the Chamber of Commerce will meet in the rooms of the organization at 111 15th street, tomorrow night to discuss the possibility of having a salvage campaign in Washington.

Mrs. Dougherty will show the chamber how the people of Washington can keep their cellars and attics clear of waste material and by so doing make hundreds of dollars for the Red Cross.

Her plan is to have the banks sell coupon books to junk dealers. The money thus taken in by the banks would be turned over to the Red Cross.
